ADVANCED INTERACTIVE CONTROL OF YOUR LOADING DOCK EQUIPMENT

ADVANCED 3-COLOR LIGHT COMMUNICATION

Compared to other standard green and red systems, iDock Controls utilize an additional third amber light if a fault is detected or restraint is in bypass mode.

OPERATOR INTERFACE

Using membrane dome button technology, operators can clearly feel and hear when they press a button, confirming that the equipment will begin operation.

INTERACTIVE MESSAGE DISPLAY INCLUDES:

EQUIPMENT INFORMATION

Access information about your dock equipment, including the serial number, installation date, and the door number.

SYSTEMS INFORMATION

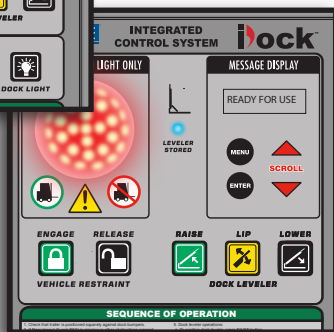

View detailed information regarding your installed dock equipment and the options that are currently active.

MAINTENANCE HISTORY

See all of your maintenance records as well as schedule a maintenance reminder that will alert you when the scheduled day has come.

COUNTERS

View your loading dock equipment statistics, such as cycle counts, optional forklift activity, faults, and more.

INTEGRATED CONTROLS

iDock Controls integrate your installed McGuire dock levelers, vehicle restraints, and other dock accessories, as well as door operators. Interlocking equipment controls provides a sequence of operation for your dock equipment, improving safety and energy efficiency.

Boost Productivity | Simplify Maintenance | Prioritize Safety | Tighten Security
